# Auto Insurance

There are two major types of life insurance policies and their description:

- 1) Term Life Insurance Policy
- 2) Whole Life Insurance Policy

# 1)Term Life Insurance:

When you purchase a term life insurance policy, you are approving to be covered for a limited period of 3 to 30 years only. A term life insurance policy will pay the beneficiary only if the loss occurs during the time that the supporter is insured. If you have ready to pay for 3 or 30 years, when the insured period is over, than the policy is terminated not considering of how much money you have contributed to your Insurance policy.

## 2) Whole Life Insurance

If you decide to get a whole life insurance policy then you will be covered as long as you pay your premiums, which can be your entire life time. It is more expensive than Term Life Insurance Policy.

# Business Insurance

Now you think about taking Life Insurance and you will search in Internet. If you want to take the insurance from reputed and trusted insurance company in Florida than Contact Network Insurance Centre which is largest and trusted insurance Agency Coral Springs.
